## News

Harborough police recently invited parish councillors to Police HQ to meet with the local policing team and partners to talk through the issues that were important to them.

Presentations were given by partner agencies, and Inspector Liz Perry, who talked about policing priorities and crime in the district. Inspector Perry said: "It was a great opportunity for parish councillors, who are all volunteers in their community, to meet their local neighbourhood officers and other policing units like the Road Safety Unit to discuss how we can work together on the issues that really matter to the community".

Recently, officers from the Harborough North team have been out using a new piece of equipment available to neighbourhood officers called Trucam 2 which essentially is a speed gun which allows us to measure drivers speed and record footage. This allows us to send a notice of intended prosecution out in the post rather than having to physically stop every car found speeding. Its much faster and easier with irrefutable evidence which we will be utilizing going forward.
