What matters to you

From information collated from local surveys, beat knowledge, intelligence and reports to Leicestershire Police, the following areas have been highlighted as priorities within the community.

your priorities for August 2024 are...

- **Priority 1: Anti-Social Behaviour (ASB) in the area of the shops on Queens Road and Clarendon Park Road. Some incidents relate to drug or alcohol use and others relate to rowdy behaviour.**

You said: ASB - Anti-Social Behaviour is a priority for residents of the ward. This is a generic policing issue that we aim to tackle robustly wherever identified, through feedback from our community Queens Road has been raised as an area of concern.

We manage reports of Anti Social behaviour through using our partnership working platform sentinel, this system allows us to communicate with partner agencies such as the council to manage these cases efficiently .

We did: Through our patrols and excellent engagement with the community the beat team identified Clarendon Park Gardens as an anti social behaviour hotspot as well as Queens Road and the surrounding area several months ago. In response to the issues raised the beat team promptly took action via the immediate implementation of a problem management plan (PMP) at the location.

Through increased patrols we identified several perpetrators and some of these were dealt with via out of court disposals and one was arrested and subsequently dealt with for drugs offences.

Through community consultation as well as a steep decline in incidents in the area has shown the effectiveness that a problem management plan and proactive working can do in preventing and deterring ASB and it's associated offences.

We are now looking to close the problem management plan on Clarendon Park Gardens so we can focus on our new identified locations of anti social behaviour, Adderley Road and Springfield Road.

Both issues are currently being managed by the beat team via sentinel case's as well as a problem management plan for Springfield Road.

We are in frequent contact with our partner agencies as well as local residents in regards to these issues and an everchanging dynamic risk assessment is being updated through pattern analysis alongside community feedback.

- **Priority 2: Anti-social use of cars on Granville Road during evenings.**

You said: Through crime pattern analysis intertwined with feedback provided by the community we have introduced "Anti-social use of cars on Granville Road" as a beat priority.

We did: Following up on last months newsletter we worked with our partner agencies to understand the problem and have introduced new measures to prevent and deter person's from engaging in this sort of behaviour , this problem has been addressed in the form of a problem management plan.

Last month several driver were identified as driving in an anti social manner and this month yet another driver has already been identified as perpetrator driving in an anti social manner and this individual has also been subsequently issued with a section 59 notice.

Further targeted patrol's have continued and will continue in the area to address the issue, making the car park safer for pedestrian's and safe driver's alike.

Other Local News

PCSO Sanghera patrolling our Anti Social Behaviour hotspots on the police bike.

Adderley Road has been subject to increased patrols following feedback from our community.

In July, we attended the Kasabian Summer solstice event in Victoria park, ensuring safety for all attendees

The beat team have been diligently responding to the concern's raised by the community by addressing the beat priorities, attending incidents, safeguarding vulnerable persons and working with our partner agencies and providing feedback to our community.

You may not always see us however we are always working in the background to address issues in the community, if you'd like to speak to a member of the beat team you attend one of our community engagement consultation's, specific dates for these can be seen at the bottom of the newsletter.

Local officers from the Clarendon Park beat team alongside colleagues from partner agencies carried out a comprehensive welfare and safeguarding operation focused on supporting the homeless community in Clarendon Park. we will continue to monitor and assess vulnerable persons in our community to ensure that essential referrals to support services are made to individuals in need, with the aim of providing comprehensive assistance to those who require it.
