Leicestershire Police

We want to you #CelebrateSafely

Fireworks light up the dark sky but please remember how and when to use them so that they are enjoyable and not a nuisance.

Fireworks cannot be used between 11pm to 7am. The only exception to this rule is the time - on Bonfire Night when they can be used until midnight, and on New Year's Eve, Diwali and Chinese New Year when they can be used until 1am

Fireworks cannot be used in public spaces - only use fireworks on private property, and always follow the safety instructions.
