PCSO Sarah Baker
PCSO Chris Clark
PCSO Abby Whitmore

#YouSaid - What matters to you

Below are our beat priorities -

Priority:

1. Dealing with anti-social behaviour and road safety involving the illegal use of e-scooters and e-bikes across the ward.

Action taken:

We Did: We continue to target antisocial behaviour connected to e-scooters and e-bikes where possible, using targeted patrols and stop checks. We suspect drug dealers are routinely using e-bikes to get around and are developing intelligence to identify them. Further Op Pedalfast events will be scheduled in to target the hotspots for this offending.

Priority:

2. Dealing with the production of class B drugs on the area, in addition to tackling the use and supply of both class A and B drugs in areas where this affects the local community.

Action taken:

We Did: In July we have conducted a number of stop searches on the beat connected to drugs, particularly in the Glenfield Road East area. This has resulted in one arrest so far, and more work in this area is planned. Our work around cannabis production continues with further enforcement in the planning stages.

Priority:

3. Reducing vehicle crime, including damage to, theft from and theft of motor vehicles on the beat.

Action taken (this relates to the previous priority around ASB):

We Did: In July we have seen a reduction in vehicle crime and damage. Patrols at key times continue to deter offending, and where vehicles are broken into, we are following all reasonable lines of enquiry to identify and deal with suspects. We have identified and dealt with two suspects for causing damage to vehicles on Bonchurch Street and are approaching the Youth offending service in relation to them.

What we are doing

Regular foot patrols around The Rally Park and along the riverside.

Clear up of The Pocket Park with Leicester City Council.

A message from your local beat team.

July has been another busy month for the Fosse Beat Team, with officers and PCSOs working alongside partner agencies, local businesses and residents to tackle the issues that matter most to our community. From safeguarding vulnerable people and addressing concerns around antisocial behaviour, to engaging positively with young people, our focus remains on making the Fosse area a safer and more welcoming place to live, work and visit.

The Fosse Beat Team has been working alongside Trading Standards to tackle shops suspected of illegally selling vapes to children. Protecting young people remains an important priority for us, and partnership working helps us address businesses that may be putting children at risk. We will continue to work with Trading Standards and respond to information from the community regarding the illegal sale of age-restricted products.

During July, the team carried out a number of cuckooing visits to safeguard vulnerable people within our community. Cuckooing is a form of exploitation where criminals take over or make use of a vulnerable person's home for criminal purposes. These visits allow us to check on residents' welfare, identify concerns and make sure appropriate safeguarding measures and support can be put in place where needed.

Our engagement work with Leicester City Football Club and local children continues to work extremely well. We have been really pleased to see a high number of children attending The Rally Park and getting involved in the activities available. Positive engagement like this provides young people with opportunities to participate in activities while building relationships with organisations and their local policing team. Thank you to everyone involved and to all the children and families who continue to support the sessions.

You said, we listened: Glenfield Road East & Kirby Road. We have listened to concerns raised by residents and local business owners about drinking and suspected drug taking reported on a daily basis around this location. We understand the effect that persistent antisocial behaviour can have on those who live and work in the area.

In response to what you have told us, the Fosse Beat Team is planning an operation specifically aimed at tackling these issues, which we intend to launch as soon as possible. Your reports help us understand where problems are occurring and allow us to target our resources effectively, so please continue to speak to your local officers and report incidents through the appropriate channels.

The City Council has worked alongside the Fosse Beat Team to clear the encampment at The Pocket Park at the end of Kirby Road. Following concerns in the area, partnership work has taken place not only to clear the site but also to help prevent the encampment from reoccurring. We will continue to monitor the location as part of our work in the area.

The Rally Park remains part of our daily patrol activity. Officers and PCSOs continue to patrol the park as part of their day-to-day duties, providing a visible policing presence, engaging with park users and responding to any concerns raised by the community.

Keep talking to us. The information we receive from residents and businesses plays an important role in helping us decide where our attention is needed.

Whether it is antisocial behaviour, concerns about a vulnerable neighbour, suspicious activity or another community issues, please continue to report your concerns and engage with your local Fosse Beat Team.

Your concerns. Your community. Your local beat team.
Fosse Beat Team

Upcoming Community Engagements for August.

ALL ENGAGEMENTS WILL BE ROUGHLY 1 HOUR LONG

1st – Fosse Community Centre, Mantle Road, 11am
5th – Foodbank, Empire road, 10.30am
