

May 2026

Welcome to your Rutland Rural South police e-newsletter.

What matters to you

We have listened to you and the concerns that have been raised through surveys, community consultations, and ongoing crime pattern analysis. With this in mind we have made the following our priorities that our efforts will be focused on this quarter:

Road Safety: You said: Speeding vehicles on Rutland roads is a priority you want us to address across the county, but in particular the A47 corridor and it's tributaries.

What we are going to do: As before we will provide frequent overt policing to the affected areas with marked vehicle patrols, and through the use of handheld speed monitoring guns. We will also continue work with our partners in road safety in order to highlight areas of concern and request deployment of resources, and continue education and information about responsible use of the roads via our social media channels.

Rural Crime: You said: The issue of theft of agricultural equipment and other plant from commercial farming locations, equipment being used to commit other offences, and livestock offences and other wildlife crime has been highlighted as a priority you want us to work on.

What we are going to do: Continue our work with partners in Community Safety, alongside other colleagues in the Rural Policing Team to identify and target harden vulnerable locations and properties. Crime and intelligence led overt patrols of South Rutland along with robust policing of suspected offenders and persons of note. We will continue to promote proactive ways to keep property safe through our social media channels, and offer crime prevention advice through our consultations and engagements.

Theft: You said: The issue of theft, but particularly of and from vehicles has been highlighted as a priority you want us to work on.

What we are going to do: Patrols of affected areas in line with crime pattern analysis and local intelligence, along with robust policing of suspected offenders and associated people involved in wider associated criminality. Keeping property safe messages reinforced through our social media channels, and crime prevention advice and support offered through consultations and engagements.

What we have done #yousaidwedid

Hi South Rutland,

Another month with more work done on the beat. Overt patrols in response to specific problems of theft of diesel and rural theft continue, along with supporting our partners with ongoing neighbourhood issues, and also supporting our 24/7 response colleagues across Melton and Rutland.

As the really good weather hits we have been aware of some parking issues around Rutland Water, particularly over the bank holiday weekend. This has not gone unnoticed by us and we will be working with Anglian Water and our partners at Rutland Council.

June is set to be very busy for us in South Rutland, sadly with a lot of abstractions to cover numerous events across Leicestershire. We will continue to be where we can, when we can and there will still be 24/7 policing across Rutland.

Neighbourhood Link

We continue to encourage local residents to have their say through Neighbourhood Link surveys, our aim is to keep all residents that have signed up to this aware of issues happening in Rutland.

Our policing priorities are set every quarter following returns of Neighbourhood Link surveys, along with crime pattern analysis data and issues highlighted by of our professional partners.

The more results we have from surveys, the better informed we are as to where to target resources.

Neighbourhood Link Community Messaging Service

Receive the latest news,
updates and events information

Caldecott - Dwelling burglary

THEFT

South Luffenham - Theft of trailer

Belton in Rutland - Theft from a driveway

Manton - Theft of trailer

Braunston in Rutland - Theft of tools *Op Sunfire

Crime trends and Prevention advice

Theft offences have risen significantly this month. Whilst a lot of these are commercial type thefts on our road networks linked to wider criminality, we still need to remain vigilant in our villages.

There are relatively simple ways to make property less desirable to those who would seek to take it:

If you keep vehicles and trailers on commercial or rural sites, PLEASE try and park where they could not be reasonably or quickly removed. The more obstacles in the way, the less attractive your equipment is. It is a bind to do this every time you finish your working day, but we have seen the alternative and stolen equipment leads to lost days on sites/farms/infrastructure.

Give consideration to floodlights and particularly CCTV systems to deter criminality especially at large commercial concerns and building and renovation sites of which there are many in South Rutland currently- thieves don't like to be seen at work, anything that exposes or helps to identify them is worth the extra effort.

At home, always consider where your keys are kept in the house. Most criminals entering properties for keys will look in the obvious places in
