PC

Phil Wandless
PC

Warm welcome to PC Wandless

It's great to have you on our team, PC Wandless is local to the area and is a highly experienced officer, please say hello to him if you see PC Wandless around.

What Matters to you?

- Road Safety - issues with speeding and dangerous driving, especially in and around the area of Gipsy Lane and Victoria Road East.
- Drug dealing/drug taking at hotspots across the beat
- General Antisocial Behaviour (ASB), mainly around Oak Street, Cravens Recreational Ground, Overton Road, Morton Walk and Forest Road area.

What we are doing

School Engagements and Patrols

PC Az and PCSO Raja who are the officers on the beat have frequently conducted foot patrols around the schools. PC Az and PCSO Raja are also conducted school engagements such as Assembly's Discussing online safety, riding bikes safely and work shops so the children can have a insight on what policing really is and how this helps the community with a positive attitude

(Northmead, Merrydale & Falcons). There has been an increasing concern in regards to selfish and inconsiderate parking outside these schools. During our patrols there we move several drivers from their poorly parked positions and remind them about the danger to the children of parking dangerously.

Antisocial behaviour

Local patrols have been carried out in order to tackle the ASB as a result of alcohol misuse in public spaces. Officers have been out on high visibility patrols around Craven Rec Ground and other key location, including Oak Street regarding vehicle ASB.

Great Conversations with the youths in the community on what effects ASB has on them and also the community around them.

Speeding operation

Ongoing collaboration between your local team and the Rushy Mead beat team - consisting of Dedicated Neighbourhood Officers (DNOs), PCSOs & Special Constables to identify and deter speeders on Gipsy Lane and Peebles way. We would like to remind you how important it is for everybody in the community to come together and keep our children safe. A number of traffic operations are being conducted in the area.

The beat team have been out and about, acting in your area, dealing robustly with those speeding and committing driving offences, in an effort to improve road safety. This will continue.

Recent speed operations mentioned have been successful with large numbers of drivers being prosecuted for driving offences.

Beat officers will be providing patrols at local schools at key times to improve the safety of pupils, parents and road users.

Protecting our Children

School road safety has been a big priority from dangerous parking which has been voiced by the public, PCSO Raja has been out insuring the safety of your children when leaving school by clearing the parking out side the school and listening to what the public have raised.

You Said , We Did
