The beat team are very much aware of lots of Anti-social behavior in the area recently involving youths, we want to make you aware that we are working hard with other partner agencies to deal with this. If anybody does have any information then please let us know either via the Leicestershire police website or by calling 101, we understand that this can be very frustrating especially for the victims involved and the wider community.

We have recently had reports of people parking up on quiet streets and using Nitrous oxide the discarding the canisters, our officers will be carrying out patrols in the area to try and tackle this.

Our officers have been out and about around Thurnby Mead primary school, monitoring the zig zag markings, just a reminder that those lines are to ensure clear visibility for children and families using the crossing. Please remember parking on a zig zag line
