

RECOGNISE AND REPORT

PROTECT YOUR HOME

Your home's security is only as strong as its weakest entry point. Strengthen doors and windows to deter thieves.

Doors:

- Use a good-quality door with strong hinges
- Fit an anti-snap door handle and 3-star cylinder
- Fit an external letterbox guard
- Keep keys out of sight
- Secure patio or French doors with anti-lift devices or locks

Windows:

- Keep all windows locked, especially at ground level
- Do not leave windows open when you are out
- Use vibration alarms to detect tampering

Extra Home Protection:

- Install external security lighting
- Use a home security alarm system
- Consider CCTV or a video doorbell
